Series Statement

Series Name: National Incident-Based Reporting System

Series Information: The National Incident Based Reporting System (NIBRS) is an incident-based reporting system for crimes known to the police. For each crime incident coming to the attention of law enforcement, a variety of data are collected about the incident. These data include the nature and types of specific offenses in the incident, characteristics of the victim(s) and offender(s), types and value of property stolen and recovered, and characteristics of persons arrested in connection with a crime incident.

Abstract

Uniform Crime Reporting (UCR) is a city, county, state, and Federal law enforcement program. This Program provides a nationwide view of crime based on the submission of crime information by law enforcement agencies throughout the country. The crime data are submitted either through a state UCR Program or directly to the national UCR Program, which is administered by the FBI. For over half a century, the data have been used in law enforcement administration, operation, and management, as well as to indicate the levels and nature of crime in the United States.

In the 1920s, the International Association of Chiefs of Police (IACP) envisioned the need for statistics on crime in our Nation. The Committee on Uniform Crime Records of the IACP developed this national data collection effort in 1930 and continues to work with the

FBI in its efforts with UCR today. During that same year, the IACP was instrumental in gaining congressional approval, which authorized the FBI to serve as the national clearinghouse for statistical information on crime. The National Sheriffs' Association, in June 1966, established a Committee on Uniform Crime Reporting to work with the FBI and to encourage sheriffs throughout the country to participate fully in the Program.

Throughout its first 60 years of operation, the UCR Program remained virtually unchanged in terms of the data collected and disseminated. As time progressed, a broad utility evolved for UCR data, and law enforcement expanded its capabilities to supply crime information. In the late 1970s, the law enforcement community called for a thorough evaluative study of UCR with the objective of recommending an expanded and enhanced UCR Program to meet law enforcement needs into the 21st century.

The FBI fully concurred with the need for an updated Program to meet contemporary needs and provided its support, formulating a comprehensive redesign effort. Following a multi year study, a "Blueprint for the Future of the Uniform Crime Reporting Program" was developed. Using the "Blueprint" and in consultation with local and state law enforcement executives, new guidelines for Uniform Crime Reports were formulated. The National Incident-Based Reporting System (NIBRS) is being implemented to meet these guidelines.

NIBRS will offer law enforcement and the academic community more comprehensive data than ever before available for management, training, planning, research, etc. The implementation of NIBRS will be at a pace commensurate with the resources, abilities, and limitations of the contributing law enforcement agencies. Since Uniform Crime Reporting, in particular NIBRS, is voluntary the pace of NIBRS implementation will be affected by the willingness of law enforcement agencies to participate.

Summary Data Description

Time Period: January 1, 2016 - December 31, 2016

Country: United States

Geographic Coverage: United States

Geographic Unit: City

Unit of Analysis: See note below.

Universe: Law enforcement agencies in the United States participating in the National Incident-Based Reporting System.

Kind of Data: Event/transaction data

Notes

UNIT OF ANALYSIS

NIBRS contains data on different aspects of crime incidents, such as offenses, victims, offenders, arrestees, etc. These different aspects can be examined as different units of analysis. The phrase "unit of analysis" refers to the subject the researcher is examining. Statistical programs often refer to this as a case. The concept of unit of analysis is one aspect of NIBRS that makes the data challenging to work with. In NIBRS data the unit of analysis may correspond to any of the individual segment levels (offenses, property, victims, offenders, or arrestees), or it may be the crime incident itself. Users of NIBRS data should decide early in the research process what the unit of analysis will be. It is very easy to obtain erroneous results by using an incorrect unit of analysis.

LINKAGE VARIABLES

To work with variables listed on two or more segment levels, the segment level files must be merged. The variables used to merge the files are the originating agency identifier (ORI) and the incident number. All segment

levels except the batch header contain both the ORI and incident
number. The batch header only contains the ORI. Within each segment level,
these variables taken together uniquely identify a record:

```
Level                   Variables

BH - Batch Header       ORI
01 - Administrative     ORI, Incident number
02 - Offense            ORI, Incident number, UCR Offense code
03 - Property           ORI, Incident number, Type of Property Loss,
                             Property Description
04 - Victim             ORI, Incident number, Victim sequence number
05 - Offender           ORI, Incident number, Offender sequence number
06 - Arrestee           ORI, Incident number, Arrestee sequence number
W1 - Incident           ORI, Incident number
W3 - Property           ORI, Incident number, Property Description
W6 - Arrestee           ORI, Incident number, Arrestee sequence number
```

BLANKS AND SYSTEM MISSING DATA

Blank and system missing values were not recoded or labeled. These values
often have a substantive meaning. Users of NIBRS data should refer to the
variable documentation to determine the meaning of blanks and system
missing values.

NIBRS DATES

The NIBRS dataset includes several date variables. A crime incident will be
included in the 2015 dataset if any of these dates are in 2015. Other dates
in the data may be for years other than 2015. For example, an arrest date
of 2015 may correspond to an incident date of 2014. Both dates will be
contained in the dataset.

JURISDICTIONAL REPORTING RULES

Throughout the Nation there are thousands of law enforcement agencies, some
of which have overlapping jurisdictions. To be certain that data are not
reported more than once by overlapping jurisdictions, the following
guidelines have been developed:

   1. City law enforcement agencies report offenses that occur within
      their city boundaries.

   2. County and state law enforcement agencies report offenses that take
      place in the county outside the limits of the city.

   3. Federal agencies report offenses within their investigative
      jurisdictions if they are not being reported by a local/State law
      enforcement agency. (NOTE: At present there are no Federal agencies'
      data in the collection.)

   4. When two or more Federal, State, or local agencies are involved in

the investigation of the same offense and there is a written or oral agreement defining the roles of the investigating agencies, the agreement should designate which agency will report the offense.

5. When two or more Federal agencies are involved in the investigation of the same offense and there is no written or oral agreement defining their roles, the Federal agency having "lead" or "primary" investigative jurisdiction will report the incident. If there is uncertainty as to which is the "lead" or "primary" agency, the agencies should agree on which agency will report the offense.

6. Agencies report only those arrests made for offenses committed within their own boundaries/jurisdictions.

7. Likewise, the recovery of property is reported only by the agency that first reported it missing and/or stolen, regardless of whom or which agency recovered it.

UPDATES IN OFFENSE AND RACE AND ETHNICITY INFORMATION

Starting with the 2012 data, some offense, location, bias motivation, race, and ethnicity codes have been added or modified to include recent Advisory Policy Board (APB) and Office of Management and Budget (OMB) policy mandates to the UCR Program related to Human Trafficking, Hate Crime, and Race and Ethnicity information.

REVISION OF SEX OFFENSES

At the recommendation of the CJIS APB and with the approval of the FBI Director, the FBI UCR Program initiated the collection of rape data under a revised definition and removed the term "forcible" from the offense name in 2013. The changes bring uniformity to the offense in both the Summary Reporting System (SRS) and the NIBRS by capturing data (1) without regard to gender, (2) including penetration of any bodily orifice by any object or body part, and (3) including offenses where physical force is not involved. As a result of this decision, the program renamed the NIBRS sex offenses - Forcible Rape to Rape, Forcible Sodomy to Sodomy, and Forcible Fondling to Fondling.

UPDATES TO RECORD LAYOUT

Prior to 2013, the data were archived and distributed as 13 separate data files, including three batch header record files. In 2013 the FBI combined the three batch header files into one file. Consequently ICPSR instituted new file numbering for the 2013 data and onward. See the File Description section for details.

Methodology and Processing

Data Collection Methodology

Time Method: Cross-section

Data Collector: United States Department of Justice. Federal Bureau of Investigation

Frequency of Data Collection: Monthly

Sampling Procedure:
NIBRS is an incident-based reporting system which means data are collected on each single crime occurrence. NIBRS data are designed to be generated as a by-product of local, State, and Federal automated records management systems. Thus, an agency can build its own system to suit its individual needs, including all the information required for administrative and operational purposes. Only the data required by NIBRS are then reported to the national UCR Program.

NIBRS collects data on each single incident and arrest within 22 offense categories made up of 46 specific crimes called Group A offenses (p. 222). For each of the offenses coming to the attention of law enforcement, various facts about the crime are collected. In addition to the Group A offenses, there are 11 Group B offense categories (p. 222) for which only arrest data are reported.

Central to NIBRS is the concept of a crime incident. An incident is defined for NIBRS reporting purposes as one or more offenses committed by the same offender, or group of offenders acting in concert, at the same time and place. "Acting in concert" requires that the offenders actually commit or assist in the commission of the crime(s). The offenders must be aware of, and consent to, the commission of the crime(s); or even if nonconsenting, their actions assist in the commission of the offense(s). This is important because all of the offenders in an incident are considered to have committed all of the offenses in the incident. If one or more of the offenders did not act in concert, then there is more than one incident involved.

The phrase "same time and place" means that the time interval between the offenses and the distance between the locations where they occurred were insignificant. Normally, the offenses must have occurred during an unbroken period of time and at the same or adjoining location(s). However, incidents can also consist of offenses which by their nature involve continuing criminal activity by the same offender(s) at different times and places, as long as the activity is deemed to constitute a single criminal transaction. See p. 225 for examples of crime incidents.

Mode of Data Collection: Mail-in forms

Type of Research Instrument: Structured

Characteristics of Data Collection Situation: The data for the NATIONAL INCIDENT-BASED REPORTING SYSTEM are submitted voluntarily by city, county, and state law enforcement agencies. Some agencies receive forms directly from the FBI and return them directly to the FBI. Many others receive forms from state collecting programs and return these forms to those programs. The state programs, in turn, forward the reports to the FBI. Reports are sent out and collected on a monthly basis.

Control Operations: Once received, the FBI checks the agencies' reports for completeness and arithmetical accuracy. If an unusual fluctuation is detected in an agency's crime count, the FBI compares those counts with counts from previous reports or compares the frequencies to those of agencies similar to the agency in question. When necessary, law enforcement agencies are contacted to correct or explain the figures.

Notes

Group A Offenses

Each Group A Incident Report can contain up to six distinct records, each of which is referred to as a segment. Most segments can occur multiple times for a given crime incident. An incident report may consist of many possible combinations of circumstances ranging from a simple one administrative, offense, victim, and offender situation, to a complex set of multiple offenses, property losses, victims, offenders, and arrestees. In addition, each of the victims may not be involved in each of the offenses. In other words, one, some, or all of the victims may be connected to each applicable offense.

Group B Offenses

There are 11 Group B offense categories. Only arrestee data are reported for Group B Crimes.

Window Segment Levels

Window Segments reflect data in which the complete Group A Incident Report was not submitted to the FBI; rather, only a portion of the incident was submitted. A Window Segment record will be generated if the incident occurred prior to January 1 of the previous year or the incident occurred prior to when the agency began submitting NIBRS data to the FBI.

Data Access

Dataset Availability

Location: Inter-university Consortium for Political and Social Research, National Archive of Criminal Justice Data

Availability Status:
SINGLE-FILE (original FBI format) vs. MULTIPLE FILES (ICPSR format)

NIBRS data as formatted by the FBI are stored in a single file. These data are organized by various segment levels (record types). There are six main segment levels: administrative, offense, property, victim, offender, and arrestee. Each segment level has a different length and layout. There are other segment levels which occur with less frequency than the six main levels. Significant computing resources are necessary to work with the data in its single-file format. In addition, the user must be sophisticated in working with data in complex file types. While it is convenient to think of NIBRS as a hierarchical file, its structure is more similar to a relational database in that there are key variables that link the different segment levels together.

Recognizing many differences in computing resources and that many users will be interested in only one or two segment levels, ICPSR has decided to make the data available as multiple files. Each NIBRS segment level in the FBI's single-file format has been made into a separate rectangular ASCII data file. Linkage (key) variables are used to perform analyses that involve two or more segment levels.

If the user is interested in variables contained in one segment level, then the data are easy to work with since each segment level file is simply a rectangular ASCII data file. Setup files are available to read each segment level. Also, with only one segment level, the issue of unit of analysis is greatly simplified.

However, if the user is interested in variables that are contained on two or more segment levels, then it is necessary to merge files, decide on the unit of analysis, and decide on the number of records per level to read. These are decisions that are necessary regardless of whether the data are stored in one large file or in separate files. Examples of working with two or more segment levels are included on the National Archive of Criminal Justice Data (NACJD) Website, http://www.icpsr.umich.edu/NACJD/

Consider an analysis involving variables from the victim (04) and offender (05) segment levels. Three units of analysis are available: the victim, the offender, and the incident itself. In addition, there may be up to 999 victim records per incident and up to 99 offender records per incident. The vast majority of incidents have only one or two victims and offenders. If the user does not limit the number of records read per incident, the analysis file will contain mostly missing data and will be excessively large. In fact, the analysis file could end up being much larger than all the segment levels combined. So in this case the user must determine both the unit of analysis and the number of records per segment level to be read, and then merge the victim and offender files accordingly.

Extent of Collection: 11 data files + machine-readable documentation (PDF) + SAS setup file(s) + SPSS setup file(s) + Stata setup file(s) + SAS transport + SPSS system + Stata system + R system

Notes:
STATES INCLUDED

The 2015 NIBRS dataset contains Group A incident records from 36 states and the District of Columbia. Some of these states report completely under NIBRS. In other states some law enforcement agencies report under NIBRS and some report under the summary UCR system.

Data for the state of Vermont are excluded for 2015 due to technical issues.

Notes

```
The ICPSR has created separate files for each segment level (record type)
on the NIBRS data. Each data file is sorted by ORI and incident number. On
each file a variable (N RECORDS PER ORI-INCIDENT NUMBER) has been added
that indicates the number of records that are within a block of records
specified by ORI and incident number. This variable has a valid integer
value for the first record in an incident, and it is system missing for
subsequent records. For example, if the victim segment file contains three
victim records for a particular ORI and incident number, these records
would be shown as:
```

```
VARIABLES              N records per ORI-Incident Number
Victim record 1                      3
Victim record 2                   (sysmis)
Victim record 3                   (sysmis)
```

This variable is important when two or more files (segment levels) are being merged or restructured.

ICPSR performed additional processing tasks on these data. ICPSR checked to ensure records are uniquely identified as described above. All possible code values are documented for each variable. Each data file was sorted by ORI and incident number in ascending order.

Data Files Description

File-by-File Description

File Name: Batch Header Segment

Contents of Files:
The Batch Header Segment separates and identifies individual police agencies by Originating Agency Identifier (ORI). An individual police agency (ORI) will appear in the batch header segment once. Each agency's information is contained in the batch header records.

Batch Header Segment (Level BH) - The batch header segment describes the agency by indicating city name, geographic information such as population group and country division and region, and whether the agency is covered by another NIBRS reporting agency. It further describes the agency by indicating the population covered by the agency, its UCR county code, and UCR MSA code. Up to five sets of these codes are included for each agency. It also indicates the FIPS county codes applicable to the agency. Up to five sets of codes are included.

File Dimensions:
- No. of Cases: 22,591

- No. of Variables: 60

- Record Length: 295

- Records per Case: 1

- Overall No. of Records: 22,591

Type of File: ASCII

Data Format: Rectangular

Notes

Prior to the 2013 data, the Batch Header information was released as three segments. Due to the NIBRS data rapidly growing in size, the FBI has removed the B1, B2, and B3 sections. All information in these sections is now contained in a single batch header segment.

File-by-File Description - 12 -

File Name: Administrative Segment

Contents of Files: Administrative Segment (Level 01) - The administrative segment of the Group A Incident Report allows the national UCR Program to uniquely identify each criminal incident reported under NIBRS, along with common characteristics of all offenses within each incident, e.g., the date and hour the incident occurred. Each crime incident has one administrative segment record. Thus, the number of crime incidents included in NIBRS data is generally equal to the number of administrative records.

File Dimensions:

- No. of Variables: 16

- Record Length: 62

- Records per Case: 1

- Overall No. of Records: 5,364,174

Type of File: ASCII

Data Format: Rectangular

Notes

In 2013 the FBI combined the three batch header files into one file. Consequently ICPSR instituted new file numbering for the 2013 data and onward. The Administrative Segment, formerly Part 4, is now Part 2.

File-by-File Description

File Name: Offense Segment

Contents of Files:
Offense Segment (Level 02) - All offenses associated with a crime incident, up to ten, are listed on separate records. In NIBRS, all Group A offenses occurring in an incident are to be reported. Care must be taken to identify all such offenses involved in an incident. For example, a rape case might also involve the crimes of motor vehicle theft and kidnapping, and they should all be reported. Care must also be taken to ensure that each offense which is reported is a separate, distinct crime, rather than just a part of another offense. For example, every robbery includes some type of assault; because the assault is an element which makes up the crime of robbery, only the robbery should be reported. If during a robbery, however, the victim is forced to engage in sexual relations, both robbery and forcible rape should be reported, as forced sexual intercourse is not an element of robbery. Burglary is another example in that it almost always includes a larceny offense. Because burglary is defined in terms of theft, only the burglary is to be reported. Information on at least one offense must be included in each Group A Incident Report.

Example 1: If an incident involved robbery and rape, two sets of offense data should be reported - one with the UCR offense code for robbery (120) and the other for forcible rape (11A).

Example 2: Even if two females were raped in Example 1 only one set of offense data should be reported with the offense code 11A. The two rape victims would be recorded in the victim data portion of the report. That is, an offense of forcible rape occurred, and there were two victims.

Notes

In 2013 the FBI combined the three batch header files into one file. Consequently ICPSR instituted new file numbering for the 2013 data and onward. The Offense Segment, formerly Part 5, is now Part 3.

File-by-File Description

File Name: Property Segment

Contents of Files:
Property Segment (Level 03) - Property data are collected to describe the type, value, and (for drugs and narcotics seized in drug cases) quantity of property involved in the incident. Each property segment record contains information on a combination of TYPE OF PROPERTY LOSS - PROPERTY DESCRIPTION. For example, if an automobile, computer equipment, and a dwelling are all vandalized during a crime incident, there will be three property segment records. Each of the three will be coded with a TYPE OF PROPERTY LOSS of "vandalized." The three records will then be uniquely coded with a PROPERTY DESCRIPTION of "automobile," "computer equipment," and "dwelling," respectively.

File Dimensions:
- No. of Cases: 6,622,171

- No. of Variables: 24

- Record Length: 105

Type of File: ASCII

Data Format: Rectangular

Notes

```
In 2013 the FBI combined the three batch header files into one file.
Consequently ICPSR instituted new file numbering for the 2013 data and onward.
The Property Segment, formerly Part 6, is now Part 4.

The following offenses/offense categories can have property records
associated with the incident:

        Arson
        Bribery
        Burglary/Breaking and Entering
        Counterfeiting/Forgery
        Destruction/Damage/Vandalism of Property
        Drug/Narcotic Offenses
        Embezzlement
        Extortion/Blackmail
        Fraud Offenses
        Gambling Offenses
        Kidnapping/Abduction
        Larceny, Theft Offenses
        Motor Vehicle Theft
        Robbery
        Stolen Property Offenses
```

File-by-File Description   - 15 -

File Name: Victim Segment

Contents of Files: Victim Segment (Level 04) - Victim data are collected to describe the victims involved in the incident. A separate set of victim data is recorded for each of the (up to 999) victims involved in the incident. There must be at least one set of victim data for each crime incident.

File Dimensions:

- No. of Cases: 6,034,725

File-by-File Description

File Name: Offender Segment

Contents of Files: Offender Segment (Level 05) - Offender data include characteristics (age, sex, and race) of each offender (up to 99) involved in a crime incident whether or not an arrest has been made. The object is to capture any information known to law enforcement concerning the offenders even though they may not have been identified. There are, of course, instances where no information about perpetrators is known.

- No. of Variables: 11

- Record Length: 43

- Records per Case: 1

- Overall No. of Records: 6,105,830

Type of File: ASCII

Data Format: Rectangular

Notes

In 2013 the FBI combined the three batch header files into one file. Consequently ICPSR instituted new file numbering for the 2013 data and onward. The Offender Segment, formerly Part 8, is now Part 8.

File-by-File Description - 17 -

File Name: Arrestee Segment

Contents of Files: Arrestee Segment (Level 06) - Arrestee data are to be reported for all persons apprehended for the commission of Group A or Group B crimes, that is, all offenses except justifiable homicide (not a crime). It must be remembered that the object here is to collect data on persons arrested, not on charges lodged. For example, a person may be arrested on several charges in connection with the same incident. In this situation, only one set of arrestee data would be reported. However, if many incidents were cleared by a single arrest there would be only one arrest record. In such cases, the multiple arrestee segments indicator would have a value of "C" for one arrest and "M" for the rest. This allows the tallying of all clearances resulting from the arrest while at the same time indicating the actual number of persons arrested.

Notes

In 2013 the FBI combined the three batch header files into one file. Consequently ICPSR instituted new file numbering for the 2013 data and onward. The Arrestee Segment, formerly Part 9, is now Part 7.

File-by-File Description

File Name: Group B Arrestee Segment

Contents of Files: Group B Arrest Report Segment (Level 07) - Because of the different natures of Group A and B offenses, not all details required for Group A Incident Reports are requested for Group B Arrest Reports. Only arrestee data are required for Group B crimes. No other information need be supplied for Group B offenses.

File Dimensions:
- No. of Cases: 1,644,551

Notes

In 2013 the FBI combined the three batch header files into one file. Consequently ICPSR instituted new file numbering for the 2013 data and onward. The Group B Arrestee Segment, formerly Part 10, is now Part 8.

File-by-File Description

File Name: Window Exceptional Clearance Segment

Contents of Files:
Window Segments reflect data in which the complete Group A Incident Report was not submitted to the FBI; rather, only a portion of the incident was submitted. A Window Segment record will be generated if the incident occurred prior to January 1 of the previous year or the incident occurred prior to when the agency began submitting NIBRS data to the FBI.

Window Exceptional Clearance Segment (Level W1) - This segment contains the same data elements as the Administrative Segment (01), plus up to 10 Group A offenses associated with the incident. In NIBRS, the submission of arrestee data automatically clears all offenses within an incident. Incidents can likewise be cleared by exceptional means when some element beyond law enforcement control precludes a physical arrest. Any exceptional clearance in an incident clears all related offenses. Exceptional clearances can be made and should be reported under one of the following five circumstances: 1) death of the offender, 2) prosecution denied, 3) in custody of other jurisdiction (inclues extradition denied), 4) victim refused to cooperate, 5) juvenile/no custody. However, exceptional clearance of an incident does not necessarily result in a window exceptional clearance record. Such a record is only produced when an exceptional clearance occurs and a condition described in the previous paragraph also exists.

Example: A kidnapper holding a hostage killed himself when the building in which he barricaded himself was surrounded by police. The kidnapping is cleared exceptionally under "death of the offender." Even though the kidnapping is cleared exceptionally, no window exceptionally cleared record is generated. If, in addition, the kidnapper was also wanted for an armed robbery which occurred prior to January of the previous year, then the death of the offender would also exceptionally clear the armed robbery, and a window exceptionally cleared record would be generated for its clearance.

Data Format: Rectangular

Notes

In 2013 the FBI combined the three batch header files into one file. Consequently ICPSR instituted new file numbering for the 2013 data and onward. The Window Recovered Property Segment, formerly Part 12, is now Part 10.

File-by-File Description

File Name: Window Arrestee Segment

Contents of Files:
Window Arrests Segment (Level W6) - This segment contains the same data elements as the Arrestee Segment (06) plus window clearance flag and up to ten Group A offenses associated with the incident.

Example: An arrest is made by an agency that converted to NIBRS in the current year. The incident occurred in the previous year. A Window Arrest Segment record will be generated.

File Dimensions:
- No. of Cases: 6,465
- No. of Variables: 31
- Record Length: 107
- Records per Case: 1
- Overall No. of Records: 6,465

Type of File: ASCII

Data Format: Rectangular

Notes

In 2013 the FBI combined the three batch header files into one file. Consequently ICPSR instituted new file numbering for the 2013 data and onward. The Window Arrestee Segment, formerly Part 13, is now Part 11.

This identifies the agency that is authorized to report crime data to the FBI.

BH004 - INCIDENT NUMBER

Location: 14-25 (width: 12; decimal: 0)

Variable Type: character

Text:
Data Element 2

This is set to blanks and is present so that the incident number is on every record in the same field position for sequencing purposes.

BH005 - DATE ORI WAS ADDED

Location: 26-33 (width: 8; decimal: 0)

Variable Type: numeric

Text:
This is the date that the UCR ORI was added or had update activity performed on it by UCR staff (Format: YYYYMMDD).

BH006 - DATE ORI WENT NIBRS

Location: 34-41 (width: 8; decimal: 0)

Variable Type: numeric

Text:
This is the date that the ORI first began submitting incident-based data to the FBI (Format: YYYYMMDD).

BH007 - CITY NAME

Location: 42-71 (width: 30; decimal: 0)

Variable Type: character

BH013 - CORE CITY

Location: 79-79 (width: 1; decimal: 0)

Variable Type: character

Text:
This designates if the agency is the central city of a Metropolitan Statistical Area (MSA).

Value	Label
Y	Yes
N	No

BH014 - COVERED-BY ORI

Location: 80-88 (width: 9; decimal: 0)

Variable Type: character

Text:
This is the ORI of the agency that submits crime data for the agency represented by the Batch Header. For example, a county will often submit a return which includes the crime data for a city within that county. This field is blank if the agency is not a "covered-by."

BH015 - FBI FIELD OFFICE

Location: 89-92 (width: 4; decimal: 0)

Variable Type: numeric

Text:
The four-digit numeric code for the FBI field office whose territory covers the agency.

Value	Label
9999	Blanked

BH016 - JUDICIAL DISTRICT

Location: 93-96 (width: 4; decimal: 0)

Variable Type: character

Text:

This is the code of the judicial district in which the agency is located. It is a three-digit numeric code followed by a letter which designates the region within the state.

BH017 - AGENCY NIBRS FLAG

Location: 97-97 (width: 1; decimal: 0)

Variable Type: character

Text:
This designates whether the ORI in a state is an active NIBRS agency or does not yet participate.

Value	Label
Blank	Does not yet participate
A	Active

BH018 - AGENCY INACTIVE DATE

Location: 98-105 (width: 8; decimal: 0)

Variable Type: numeric

Text:
This is the date that the agency stopped submitting either NIBRS or Summary-Based data directly to the FBI (Format: YYYYMMDD). The Covered-By ORI is now submitting for this agency.

BH019 - CURRENT POPULATION 1

Location: 106-114 (width: 9; decimal: 0)

Variable Type: numeric

Text:
Some agencies are in as many as five different counties.

This is the population for the agency or the population of the portion of the agency which is located in the county.

BH020 - UCR COUNTY CODE 1

Location: 115-117 (width: 3; decimal: 0)

Variable Type: numeric

Text:
Some agencies are in as many as five different counties.

This is the UCR county code for the agency or the UCR county code of the portion of the agency which is located in the county.

BH021 - MSA CODE 1

Location: 118-120 (width: 3; decimal: 0)

Variable Type: numeric

Text:
This is the code of the metropolitan statistical area (MSA) in which the agency is located.

BH022 - LAST POPULATION 1

Location: 121-129 (width: 9; decimal: 0)

Variable Type: numeric

Text:
This is the population of the agency in the previous census.

BH023 - CURRENT POPULATION 2

Location: 130-138 (width: 9; decimal: 0)

Variable Type: numeric

BH024 - UCR COUNTY CODE 2

Location: 139-141 (width: 3; decimal: 0)

Variable Type: numeric

BH039 - 01-06-12 INDICATOR

Location: 226-227 (width: 2; decimal: 0)

Variable Type: numeric

Text:
This is used by UCR to indicate if the agency has submitted data for 12 months, for 6 or more months, or for 1 or more months. Reports can then be generated to include only those agencies meeting the designated reporting time period.

Value	Label
Blanks	no months reported
01	1 or more months reported
06	6 or more months reported
12	12 months reported

BH040 - NUMBER OF MONTHS REPORTED

Location: 228-229 (width: 2; decimal: 0)

Variable Type: numeric

Range of Valid Data Values: 00 thru 12

Text:
This is similar to the 01-06-12 indicator above except that this field contains the exact number of months reported.

BH041 - MASTER FILE YEAR

Location: 230-233 (width: 4; decimal: 0)

Variable Type: numeric

Text:
This is the year of the NIBRS master file requested.

BH042 - AGENCY ACTIVITY INDICATOR JANUARY

Location: 234-236 (width: 3; decimal: 0)

Variable Type: character

Text:
Submission activity for each of the twelve months is reflected in each of the three-byte monthly flags as described. The first occurrence is January, the second is February, etc.

"Activity" does not guarantee the presence of incidents following the Batch Header but the probability of not having incidents would be extremely low. For example, assume agency "X" submitted a single incident for a month. Then the following month this incident was deleted from the file because it was unfounded. Since there had been activity, the flag will remain "Y" to show this important fact.

1st position: Y = Zero report was submitted.

2nd position: Y = Group A or B was submitted.

3rd position: Y = Window record was submitted.

BH043 - AGENCY ACTIVITY INDICATOR FEBRUARY

Location: 237-239 (width: 3; decimal: 0)

Variable Type: character

Text:
1st position: Y = Zero report was submitted.

2nd position: Y = Group A or B was submitted.

3rd position: Y = Window record was submitted.

BH044 - AGENCY ACTIVITY INDICATOR MARCH

Location: 240-242 (width: 3; decimal: 0)

Variable Type: character

Text:
1st position: Y = Zero report was submitted.

2nd position: Y = Group A or B was submitted.

3rd position: Y = Window record was submitted.

BH045 - AGENCY ACTIVITY INDICATOR APRIL

Location: 243-245 (width: 3; decimal: 0)

Variable Type: character

Text:
1st position: Y = Zero report was submitted.

2nd position: Y = Group A or B was submitted.

3rd position: Y = Window record was submitted.

BH046 - AGENCY ACTIVITY INDICATOR MAY

Location: 246-248 (width: 3; decimal: 0)

Variable Type: character

Text:
1st position: Y = Zero report was submitted.

2nd position: Y = Group A or B was submitted.

3rd position: Y = Window record was submitted.

BH047 - AGENCY ACTIVITY INDICATOR JUNE

Location: 249-251 (width: 3; decimal: 0)

Variable Type: character

Text:
1st position: Y = Zero report was submitted.

2nd position: Y = Group A or B was submitted.

3rd position: Y = Window record was submitted.

BH048 - AGENCY ACTIVITY INDICATOR JULY

Location: 252-254 (width: 3; decimal: 0)

Variable Type: character

Text:

2nd position: Y = Group A or B was submitted.

3rd position: Y = Window record was submitted.

BH054 - FIPS COUNTY 1

Location: 270-272 (width: 3; decimal: 0)

Variable Type: character

Text:
The previous group field entitled "Five-County Population Coverage" contains four fields occurring five times, one of which is the UCR county code.

Each relative position of the UCR county code has a corresponding FIPS county code equivalent in the same relative position.

BH055 - FIPS COUNTY 2

Location: 273-275 (width: 3; decimal: 0)

Variable Type: character

V1011 - TOTAL ARRESTEE SEGMENTS

Location: 44-45 (width: 2; decimal: 0)

Variable Type: numeric

Text:
This is the number of Arrestee Segments (up to 99) in the Group A Incident Report.

V1012 - CITY SUBMISSION

Location: 46-49 (width: 4; decimal: 0)

Variable Type: numeric

Text:
This field is used by the FBI to identify those cities that submit directly to the FBI as a result of the state not having a NIBRS program.

V1013 - CLEARED EXCEPTIONALLY

Location: 50-50 (width: 1; decimal: 0)

Variable Type: character

Text:
Data Element 4

This indicates if the incident is cleared by nonarrest circumstances outside the control of law enforcement. If code is other than "N" (Not Applicable), the Exceptional Clearance Date applies.

Value	Label
A	Death of Offender
B	Prosecution Declined (for other than lack of probable cause)
C	In Custody of Other Jurisdiction (inclues extradition denied)

V1014 - EXCEPTIONAL CLEARANCE DATE

Location: 51-58 (width: 8; decimal: 0)

Variable Type: numeric

Text:
Data Element 5

This is the date of the exceptional clearance (Format: YYYYMMDD).

V1015 - N 01 RECORDS PER ORI-INCIDENT NUMBER

Location: 59-61 (width: 3; decimal: 0)

Variable Type: numeric

Text:
This is the number of Administrative Segment (01) records in a group of records with a common ORI and incident number.

V1016 - CARGO THEFT

Location: 62-62 (width: 1; decimal: 0)

Variable Type: character

Text:
This data element indicates whether or not the incident involved a Cargo Theft. Although it is an optional data element, once added to a submission, it becomes conditional and must be populated with a valid data value or left blank depending on the offenses in the incident. By incorporating the Segment Length of 0062 for Cargo Theft, incidents with a Cargo Theft-related offense must contain a valid data value in record position 62. Conversely, any incident without one of these offenses must contain a blank in position 62. Cargo Theft-related offenses are:

- 120 = Robbery
- 210 = Extortion/Blackmail
- 220 = Burglary/Breaking and Entering
- 23D = Theft From Building
- 23F = Theft From Motor Vehicle
- 23H = All Other Larceny
- 240 = Motor Vehicle Theft
- 26A = False Pretenses/Swindle/Confidence Game
- 26B = Credit Card/Automated Teller Machine Fraud
- 26C = Impersonation
- 26E = Wire Fraud

The corresponding variable in the window exceptionally cleared segment is W1026.

Value	Label
Y	Yes
N	No

Uniform Crime Reporting Program Data: National Incident-Based Reporting System, [United States], 2016

Offense Segment

Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

PROPERTY SEGMENT DATA ELEMENTS

Overview

Up to 10 Property Description Codes can be present for each type of loss/etc. selected under data element 14 (Type Property Loss/ Etc.), with each on a separate Property Segment. If more than 10 types of property are involved, the codes and values for the nine most valuable are present; then, "77" (Other) has the remaining properties, along with their total value.

Property data entered into data elements 14 through 22 will include the TOTAL losses, recoveries, seizures, etc., for all the VICTIMS in this incident.

If Type Property Loss/Etc. is "1" (None) or "8" (Unknown), data elements 15-22 will be blank unless "1" (None) was entered and the offense is 35A, then data element 20 (Suspected Drug Type) will be present.

V3008 - VALUE OF PROPERTY

Location: 37-45 (width: 9; decimal: 0)

Variable Type: numeric

Text:
Data Element 16

If the value of the property is unknown, the value will be one ("1") dollar.

The value will be blanks when the offense is Drug/Narcotic Violations (UCR Code 35A) and "6" (Seized) for data element 14 (Type Property Loss/Etc.) and "10" (Drugs/Narcotics) for data element 15 (Property Description) are present. Instead, data elements 20-22 would be present.

A property value for "10" (Drugs/Narcotics) would, however, be present if this property applies to other offenses (e.g., arson, burglary, etc.). data elements 20-22 would then be left blank.

V3009 - DATE RECOVERED

Location: 46-53 (width: 8; decimal: 0)

Variable Type: numeric

Text:
Data Element 17

This is the date that the property item was recovered (Format: YYYYMMDD). This will be present ONLY if data element 14 (Type Property Loss/Etc.) is "5" (Recovered).

V3010 - NUMBER OF STOLEN MOTOR VEHICLES

Location: 54-55 (width: 2; decimal: 0)

Variable Type: numeric

Text:
Data Element 18

STOLEN/RECOVERED MOTOR VEHICLES

If motor vehicles (Codes 03, 05, 24, 28, or 37) were stolen and/or recovered, data elements 18 and/or 19, as applicable, will show the number of vehicles involved.

Will be present only if data element 14 (Type Property Loss/Etc.) was "5" (Recovered) or "7" (Stolen) and the UCR Offense Code was 240 (Motor Vehicle Theft). If number is unknown, "00" will be present.

V3011 - NUMBER OF RECOVERED MOTOR VEHICLES

Location: 56-57 (width: 2; decimal: 0)

Variable Type: numeric

Text:
Data Element 19

STOLEN/RECOVERED MOTOR VEHICLES

If motor vehicles (Codes 03, 05, 24, 28, or 37) were stolen and/or recovered, data elements 18 and/or 19, as applicable, will show the number of vehicles involved.

Will be present only if data element 14 (Type Property Loss/Etc.) was "5" (Recovered) or "7" (Stolen) and the UCR Offense Code was 240 (Motor Vehicle Theft). If number is unknown, "00" will be present.

V3012 - SUSPECTED DRUG TYPE 1

Location: 58-58 (width: 1; decimal: 0)

Variable Type: character

Text:
Data Element 20

DRUG INVOLVEMENT DATA

Overview

Will be present only if: the offense is Drug/Narcotic Violation (UCR Code 35A), "6" (Seized) is present in data element 14 (Type Property Loss/Etc.), and "10" (Drugs/Narcotics) is present in data element 15 (Property Description). The number of pounds, grams, items, etc. of the drug/narcotic will be in data element 21 (Estimated Drug Quantity). If data element 22 (Type Measurement) was not available at the time of the submission, "XX" (Not Reported) will be present and "1" will be present in data element 21 (Estimated Quantity).

If "1" (None) is present instead of "6" (Seized) above, then data element 20 (Suspected Drug Type) should be present.

If more than three types of drugs are involved, the codes for the two most important along with "X" (Over 3 Drug Types) for the remaining drugs will be present. In this instance, data elements 21 (Estimated Drug Quantity) and 22 (Type Drug Measurement) will be blank. Note that no entry is made into data element 16 (Value of Property) when the offense is "Drug/Narcotic Violation" (UCR Code 35A).

V4017C - ORI OTHER JURISDICTION (OFFICER)

Location: 71-79 (width: 9; decimal: 0)

Variable Type: character

Text:
Data Element 25C

This is the unique nine-character Originating Agency Identifier (ORI) Number that has been assigned to each agency in the National Crime Information Center. If a law enforcement officer is killed or assaulted in the line of duty in a jurisdiction other than his own, the law enforcement agency having jurisdiction should report the law enforcement officer killed or assaulted using Data Element 25C to identify the ORI of that law enforcement officer's agency. No entry is required if the officer is in his own jurisdiction.

This field applies to law enforcement officers assaulted or killed in the line of duty.

V4031 - OFFENDER NUMBER TO BE RELATED (1ST)

Location: 96-97 (width: 2; decimal: 0)

Text:
Data Element 34

Data elements 34 and 35 will be present only if one or more of the offenses entered into 24 [victim connected to UCR offense code(s)] is a "Crime Against Person," i.e., an assault offense (UCR codes 13A-13C), homicide offense (09A-09C), kidnapping / abduction (100), forcible sex offense (11A-11D), nonforcible sex offense (36A-36B); or if it is a robbery offense (120).

The relationship(s) of the victim to each offender (up to 10 offenders involved in the incident) are present. If there are more than 10 offenders, the 10 closest in relationship will be present.

If data element 34 (Offender Sequence Number) is "00" (Unknown), the relationship code will be blank.

Each Offender Sequence Number (data element 36) is present in data element 34 (Offender Numbers to be Related). The appropriate Relationship Code is present in data element 35 (Relationships of Victim to Offenders).

Offender Segment

Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Arrestee Segment

Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

W1026 - CARGO THEFT

Location: 92-92 (width: 1; decimal: 0)

Variable Type: character

Text:
This data element indicates whether or not the incident involved a Cargo Theft. Although it is an optional data element, once added to a submission, it becomes conditional and must be populated with a valid data value or left blank depending on the offenses in the incident. By incorporating the Segment Length of 0062 for Cargo Theft, incidents with a Cargo Theft-related offense must contain a valid data value in record position 62. Conversely, any incident without one of these offenses must contain a blank in position 62. Cargo Theft-related offenses are:

- 120 = Robbery
- 210 = Extortion/Blackmail
- 220 = Burglary/Breaking and Entering
- 23D = Theft From Building
- 23F = Theft From Motor Vehicle
- 23H = All Other Larceny
- 240 = Motor Vehicle Theft
- 26A = False Pretenses/Swindle/Confidence Game
- 26B = Credit Card/Automated Teller Machine Fraud
- 26C = Impersonation
- 26E = Wire Fraud

The corresponding variable in the administrative segment is V1016.

The meaning of the asterisks in this column location is unknown.

Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

PROPERTY SEGMENT DATA ELEMENTS

Overview

Up to 10 Property Description Codes can be present for each type of loss/etc. selected under data element 14 (Type Property Loss/ Etc.), with each on a separate Property Segment. If more than 10 types of property are involved, the codes and values for the nine most valuable are present; then, "77" (Other) has the remaining properties, along with their total value.

Property data entered into data elements 14 through 22 will include the TOTAL losses, recoveries, seizures, etc., for all the VICTIMS in this incident.

If Type Property Loss/Etc. is "1" (None) or "8" (Unknown), data elements 15-22 will be blank unless "1" (None) was entered and the offense is 35A, then data element 20 (Suspected Drug Type) will be present.

W3008 - VALUE OF PROPERTY

Location: 37-45 (width: 9; decimal: 0)

Variable Type: numeric

Text:
Data Element 16

If the value of the property is unknown, the value will be one ("1") dollar.

The value will be blanks when the offense is Drug/Narcotic Violations (UCR Code 35A) and "6" (Seized) for data element 14 (Type Property Loss/Etc.) and "10" (Drugs/Narcotics) for data element 15 (Property Description) are present. Instead, data elements 20-22 would be present.

A property value for "10" (Drugs/Narcotics) would, however, be present if this property applies to other offenses (e.g., arson, burglary, etc.). data elements 20-22 would then be left blank.

W3009 - DATE RECOVERED

Location: 46-53 (width: 8; decimal: 0)

Variable Type: numeric

Text:
Data Element 17

This is the date that the property item was recovered (Format: YYYYMMDD). This will be present ONLY if data element 14 (Type Property Loss/Etc.) is "5" (Recovered).

W3010 - NUMBER OF STOLEN MOTOR VEHICLES

Location: 54-55 (width: 2; decimal: 0)

Variable Type: numeric

Text:
Data Element 18

STOLEN/RECOVERED MOTOR VEHICLES

If motor vehicles (Codes 03, 05, 24, 28, or 37) were stolen and/or recovered, data elements 18 and/or 19, as applicable, will show the number of vehicles involved.

Will be present only if data element 14 (Type Property Loss/Etc.) was "5" (Recovered) or "7" (Stolen) and the UCR Offense Code was 240 (Motor Vehicle Theft). If number is unknown, "00" will be present.

W3011 - NUMBER OF RECOVERED MOTOR VEHICLES

Location: 56-57 (width: 2; decimal: 0)

Variable Type: numeric

Text:
Data Element 19

STOLEN/RECOVERED MOTOR VEHICLES

If motor vehicles (Codes 03, 05, 24, 28, or 37) were stolen and/or recovered, data elements 18 and/or 19, as applicable, will show the number of vehicles involved.

Will be present only if data element 14 (Type Property Loss/Etc.) was "5" (Recovered) or "7" (Stolen) and the UCR Offense Code was 240 (Motor Vehicle Theft). If number is unknown, "00" will be present.

Location: 58-58 (width: 1; decimal: 0)

Variable Type: character

Text:
Data Element 20

DRUG INVOLVEMENT DATA

Overview

Will be present only if: the offense is Drug/Narcotic Violation (UCR Code 35A), "6" (Seized) is present in data element 14 (Type Property Loss/Etc.), and "10" (Drugs/Narcotics) is present in data element 15 (Property Description). The number of pounds, grams, items, etc. of the drug/narcotic will be in data element 21 (Estimated Drug Quantity). If data element 22 (Type Measurement) was not available at the time of the submission, "XX" (Not Reported) will be present and "1" will be present in data element 21 (Estimated Quantity).

If "1" (None) is present instead of "6" (Seized) above, then data element 20 (Suspected Drug Type) should be present.

If more than three types of drugs are involved, the codes for the two most important along with "X" (Over 3 Drug Types) for the remaining drugs will be present. In this instance, data elements 21 (Estimated Drug Quantity) and 22 (Type Drug Measurement) will be blank. Note that no entry is made into data element 16 (Value of Property) when the offense is "Drug/Narcotic Violation" (UCR Code 35A).

Uniform Crime Reporting Program Data: National Incident-Based Reporting System, [United States], 2016

Window Arrestee Segment

Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

CRIMES AGAINST PERSONS/ PROPERTY/ SOCIETY

NIBRS offenses are divided into three categories: Crimes against persons, crimes against property, or crimes against society. Crimes against persons are those whose victims are always individuals, e.g., murder, forcible rape, assault. The object of crimes against property is to obtain money, property, or some other benefit, e.g., robbery, bribery, burglary. Crimes against society represent society's prohibition against engaging in certain types of activity, e.g., gambling, prostitution, drug violations.

For counting purposes, one offense is counted for each victim of a crime against persons; one offense is counted for each distinct operation for crime against property (except motor vehicle theft, where one offense is counted for each stolen vehicle); and one offense is counted for each crime against society.

The following offense categories, known as Group A offenses, were selected as those for which extensive crime data should be collected in NIBRS.

Examples of Crime Incidents   - 225 -

Text:

Below are three examples of different crime incidents. They are included to highlight the concept of an incident for NIBRS data.

Example 1: Two offenders robbed a bar. The bartender was forced at gunpoint to surrender money from the cash register. The robbers also took money and jewelry from three customers. One of the robbers, in searching for more customers to rob, found a female customer in the rest room and raped her there outside of the view of the other offender. When the rapist returned, both robbers left. There were two incidents, one involving robbery and the other involving forcible rape, because the offenders weren't "acting in concert" in both offenses.

Example 2: Same situation as example 1, except that the rape occurred in the bar and the other offender told the rapist to stop and only rob the victim. There was only one incident with two offenses, i.e., robbery and forcible rape. Although the other robber did not consent to the rape, by displaying a gun he prevented someone coming to the victim's assistance and thereby assisted in the commission of the crime.

Example 3: Over a period of 18 months, a computer programmer working for a bank manipulated the bank's computer and systematically embezzled $70,000. The continuing criminal activity constituted a single incident involving the crime of embezzlement.

NIBRS Group A Offense Definitions

Text:

1. Arson

> Definition - To unlawfully and intentionally damage, or attempt to damage, any real or personal property by fire or incendiary device.

Only fires determined through investigation to have been unlawfully and intentionally set are to be classified as arson. Attempts to burn should be included, but fires of suspicious or unknown origin should not be reported. One incident should be scored for each distinct arson operation originating within the reporting jurisdiction. If an arson is perpetrated in one locale and spreads to another, it would be reported by the jurisdiction in which the fire originated.

Incidents in which persons are killed as a direct result of arson involve both homicide and arson. Similarly, the number of persons injured during an arson should be reported as assaulted along with the arson. Arson-related deaths and injuries of police officers and firefighters, unless willful murders or assaults, are excluded from the program due to the hazardous nature of these professions.

2. Assault Offenses

> Definition - An unlawful attack by one person upon another.

A. Aggravated Assault

> Definition - An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness. This also includes assault with disease (as in cases when the offender is aware that he/she is infected with a deadly disease and deliberately attempts to inflict the disease by biting, spitting, etc.).

For purposes of aggravated assault reporting, a weapon is a commonly known weapon (a gun, knife, club, etc.) or any other item which, although not usually thought of as a weapon, becomes one when used in a manner that could cause the types of severe bodily injury described in the above definition. A severe laceration is one which should receive medical attention. Loss of consciousness must be the direct result of force inflicted on the victim by the offender.

Aggravated assault includes: assaults or attempts to kill or murder; poisoning; assault with a dangerous or deadly weapon; maiming, mayhem, assault with explosives; and assault with disease (as in cases when the offender is aware that he/she is infected with a deadly disease and deliberately attempts to inflict the disease by biting, spitting, etc.). All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified as aggravated assault. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is

used which could cause serious personal injury. By definition, there can be no attempted assaults.

On occasion, it is the practice to charge assailants in assault cases with assault and battery or simple assault even though a knife, gun, or other weapon was used in the incident. For UCR purposes, this type of assault is to be classified as aggravated.

B. Simple Assault

       Definition - An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

Included are offenses such as minor assault, hazing, assault and battery, and injury caused by culpable negligence. As with aggravated assault, there are no attempted simple assaults.

C. Intimidation

       Definition - To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.

Intimidation involves an offender making some type of threat to the victim without actually using or displaying a weapon. Such threats can be made in person, over the telephone, or in writing.

AN AID IN CLASSIFYING ASSAULTS

Careful consideration of the following factors should assist in classifying assaults:

       1. The type of weapon employed or the use of an object as a weapon;
       2. The seriousness of the injury;
       3. The intent and capability of the assailant to cause serious injury.

Usually, the weapons used or the extent of the injury sustained will be the deciding factors in distinguishing aggravated from simple assault. In only a very limited number of instances should it be necessary to examine the intent and capability of the assailant.

Prosecutorial policy in a jurisdiction should not influence classification or reporting of law enforcement offense data. It is necessary that assaults in each jurisdiction be examined and classified according to the standard UCR definitions, regardless of whether they are termed felonies by local definitions.

3. Bribery

       Definition - The offering, giving, receiving, or soliciting of any thing of value (i.e., a bribe, gratuity, or kickback) to sway the judgment or action of a person in a position of trust or influence.

This offense excludes sports bribery, i.e., changing the outcome of a sporting contest or event, which is covered in the offenses dealing with gambling.

The phrase, "The offering, giving, receiving, or soliciting of any thing of value...," includes such things as gratuities, kickbacks, favors, or anything else used illegally to influence the outcome of something that is governed by law, fair play, contractual agreement, or any other guideline. The bribe would bring the outcome of an event outside any realm of reasonableness, the result of which could be predicted based on the offering or influence given to the person(s) in a position to render decisions.

4. Burglary/Breaking and Entering

> Definition - The unlawful entry into a building or other structure with the intent to commit a felony or a theft.

For UCR purposes, offenses locally known as burglary (any degree); unlawful entry with intent to commit a larceny or felony; breaking and entering with intent to commit a larceny; housebreaking; and safecracking should be classified as burglary. Burglary almost always includes some type of larceny offense. Because, however, burglary is defined in terms of theft, only the burglary is to be reported, not the accompanying larceny.

In the UCR standard definition of burglary, a structure is considered to include, but not be limited to, the following:

Apartment	Office
Barn	Other Building
Cabin	Outbuilding
Church	Public Building
Condominium	Railroad Car
Dwelling House	Room
Factory	School
Garage	Stable
Housetrailer or Houseboat	Vessel (Ship)
(used as permanent dwelling)	Warehouse
Mill	

Any housetrailer or other mobile unit that is permanently fixed as an office, residence, or storehouse should also be considered a structure.

Whenever a question arises as to whether a type of structure comes within the purview of the burglary definition, the law enforcement officer should look to the nature of the crime and be guided by the examples set forth. If a question remains, contact the FBI's UCR unit. The illegal entry of a tent, tent trailer, motorhome, housetrailer, or any other mobile unit that is being used for recreational purposes, followed by a theft, felony, or attempt to commit a felony or theft, should NOT be classified as burglary, but as larceny.

Burglaries of hotels, motels, lodging houses, or other places where lodging of transients is the main purpose or burglaries of temporary rental storage facilities, i.e., "mini-storage" and "self-storage" buildings, can pose reporting questions. If a number of units under a single manager are

burglarized and the offenses are most likely to be reported to the police
by the manager rather than the individual tenants/renters, the burglary
should be reported as a single incident. Examples are burglaries of a
number of rental hotel rooms, rooms in "flop" houses, rooms in a youth
hostel, units in a motel, and storage units in a commercial self-storage
building. If the individual living areas in a building are rented or leased
to the occupants for a period of time, which would preclude the tenancy
from being classified as transient, then the burglaries would most likely
be reported separately by the occupants. Such burglaries should be reported
as separate incidents. Examples of this latter type of multiple burglary
would be the burglaries of a number of apartments in an apartment house, of
the offices of a number of commercial items in a business building, of the
offices of separate professionals within one building, or of a number of
rooms in a college dormitory.

NOTE: Remember that offenses should be classified according to NIBRS
definitions and not according to state, local, or Federal codes. Some
jurisdictions might, for example, categorize a shoplifting or a theft from
an automobile as burglary. These offenses are not classified as burglaries
in UCR and must be considered larcenies for reporting purposes. Thefts from
automobiles (whether locked or not); shoplifting from commercial
establishments; and thefts from telephone booths, coinboxes, or
coin-operated machines do not involve unlawful entry of a structure; thus,
no burglary occurred.

5. Counterfeiting/Forgery

        Definition - The altering, copying, or imitation of something,
        without authority or right, with the intent to deceive or defraud by
        passing the copy or thing altered or imitated as that which is
        original or genuine; or the selling, buying, or possession of an
        altered, copied, or imitated thing with the intent to deceive or
        defraud.

In most states, forgery and counterfeiting are treated as allied
offenses. Included in this category are offenses such as altering and
forging public and other records; making, altering, forging or
counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc.;
forging wills, deeds, notes, bonds, seals, trademarks, etc.; counterfeiting
coins, plates, banknotes, checks, etc.; possessing forged or counterfeited
instruments; erasures; signing the name of another or fictitious person
with intent to defraud; using forged labels; possession, manufacture, etc.,
of counterfeiting apparatus; and selling goods with altered, forged, or
counterfeited trademarks. Although counterfeiting/forgery offenses can
involve elements of fraud, they are treated separately due to their unique
nature.

6. Destruction/Damage/Vandalism of Property

        Definition - To willfully or maliciously destroy, damage, deface, or
        otherwise injure real or personal property without the consent of
        the owner or the person having custody or control of it.

The offense includes a broad range of injury to property, i.e., from
deliberate, extensive destruction of property at one extreme to
mischievous, less extensive damage at the other extreme. It does not
include destruction or damage to property caused by arson. As a general

rule, the offense is to be reported only if the reporting agency deems that substantial damage to property has occurred. However, any offense suspected to have been motivated by the offender's bias against the victim's race, religion, ethnicity, or sexual orientation is to be reported regardless of the amount or type of damage.

Incidental damage resulting from another offense (e.g., burglary, robbery) is to be reported in this offense category only if the reporting agency deems the amount of damage to be substantial. For example, insubstantial damage, such as a broken window, forced door, etc., should not be reported, but, substantial damage, such as where a truck is backed into a store front to gain admittance and major structural damage is caused, should be reported. For the crime of arson, however, incidental damage resulting from fighting the fire should be included as part of the loss caused by burning. The determination of whether the damage was substantial is left to the discretion of the reporting law enforcement agency and should not require burdensome damage assessments.

7. Drug/Narcotic Offenses

> Definition - The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances and the equipment or devices utilized in their preparation and/or use.

A. Drug/Narcotic Violations

> Definition - The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance.

B. Drug Equipment Violations

> Definition - The unlawful manufacture, sale, purchase, possession, or transportation of equipment or devices utilized in preparing and/or using drugs or narcotics.

This offense covers those cases involving drug paraphernalia, equipment, chemicals, illegal labs, etc. Various statutes and/or codes may vary in the description of equipment or paraphernalia involved with drugs/narcotics. If any difficulty arises in determining whether or not a particular item, tool, chemical, etc., is applicable to this offense, contact the national Uniform Crime Reporting Program for clarification.

8. Embezzlement

> Definition - The unlawful misappropriation by an offender to his/her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.

Generally, the victims of embezzlement offenses are businesses, financial institutions, etc.

9. Extortion/Blackmail

> Definition - To unlawfully obtain money, property, or any other thing of value, either tangible or intangible, through the use or threat of force, misuse of authority, threat of criminal

        prosecution, threat of destruction of reputation or social standing,
        or through other coercive means.

Even though persons are involved or victimized in extortion/blackmail
cases, this offense is considered a crime against property. Like robbery,
which is also a crime against property, the object or target of
extortion/blackmail is to obtain money or property; therefore, it is
classified as such. Extortions include offenses where threats are made in
nonconfrontational circumstances and the victim is not in fear of immediate
harm. If during a demand for money, property, etc., there is a personal
confrontation between the victim and offender and the threat of force or
violence could be carried out immediately, the offense should be reported
as Robbery.

10. Fraud Offenses

        Definition - The intentional perversion of the truth for the purpose
        of inducing another person or other entity in reliance upon it to
        part with some thing of value or to surrender a legal right.

By definition, fraud involves either the offender receiving a benefit or
the victim incurring a detriment. The benefit or detriment could be either
tangible or intangible. For example, if a person impersonates a doctor to
gain entrance to a restricted area of a hospital, the benefit to the
offender (entry to the restricted area) is intangible. Intangibles are
anything which cannot be perceived by the sense of touch. They can be
benefits, e.g., a right or privilege, a promotion, enhanced reputation,
etc.; or a detriment, e.g., loss of reputation, injured feelings, etc.

The most specific subcategory of fraud should be reported whenever the
circumstances fit the definition of more than one of the subcategories
listed below. For example, most frauds would fit the definition of False
Pretenses/Swindle/Confidence Game. But, if a credit card was used to
perpetrate the fraud, the offense would be classified as Credit
Card/Automatic Teller Machine Fraud.

The only fraud-related violations that would not be reported under the
Fraud Offenses category are counterfeiting, forgery, and bad checks. These
offenses are reported under their own specific offense classifications.

When classifying fraud cases other than the most obvious ones, i.e., con
games, swindles, etc., care should be used in applying the facts of the
case to the definition of fraud. Often questions arise as to whether or not
the facts of a case describe a fraud or a larceny. Whereas both offenses
can involve theft, it is the method used to steal that makes the difference
between the two. Fraud is achieved through deceit or lying, whereas larceny
is the physical taking of something.

Examples of common fraud cases are where something of value, e.g., a VCR or
automobile, is rented for a period of time but is not returned. This
offense, conversion of goods lawfully possessed by bailees, is classified
as fraud and not larceny. In such cases, the offenders originally had
lawful possession of the property (the property was either rented, loaned,
or the person was in some way entrusted with its possession) and through
deceit (they promised to return it) kept the property.

A common classification problem is the taking of gasoline without paying

for it. If an offender takes gasoline from a self-service gas station without paying for it, the offense is classified as larceny. In this case, no contract was entered into nor agreement made for payment. This would be the same as taking a can of oil off of the station's rack. However, if a station attendant is asked to fill the tank, there is a tacit agreement that he will be paid for the gas, and the offender, never having the intention to pay for it in the first place, utilized deception and stole the gas. This, then, is classified as a fraud.

A. False Pretenses/Swindle/Confidence Game

> Definition - The intentional misrepresentation of existing fact or condition, or the use of some other deceptive scheme or device, to obtain money, goods, or other things of value.

B. Credit Card/Automatic Teller Machine Fraud

> Definition - The unlawful use of a credit (or debit) card or automatic teller machine for fraudulent purposes.

This offense does not apply to the theft of a credit/debit card but rather its fraudulent use.

C. Impersonation

> Definition - Falsely representing one's identity or position, and acting in the character or position thus unlawfully assumed, to deceive others and thereby gain a profit or advantage, enjoy some right or privilege, or subject another person or entity to an expense, charge, or liability which would not have otherwise been incurred.

D. Welfare Fraud

> Definition - The use of deceitful statements, practices, or devices to unlawfully obtain welfare benefits.

E. Wire Fraud

> Definition - The use of an electric or electronic communications facility to intentionally transmit a false and/or deceptive message in furtherance of a fraudulent activity.

This classification applies to those cases where telephone, teletype, micro-relay facilities, etc., are used in the commission or furtherance of a fraud.

11. Gambling Offenses

> Definition - To unlawfully bet or wager money or something else of value; assist, promote, or operate a game of chance form money or some other stake; possess or transmit wagering information; manufacture, sell, purchase, possess, or transport gambling equipment, devices, or goods; or tamper with the outcome of a sporting event or contest to gain a gambling advantage.

A. Betting/Wagering

> Definition - To unlawfully stake money or something else of value on the happening of an uncertain event or on the ascertainment of a fact in dispute.

B. Operating/Promoting/Assisting Gambling

> Definition - To unlawfully operate, promote, or assist in the operation of a game of chance, lottery, or other gambling activity.

C. Gambling Equipment Violations

> Definition - To unlawfully manufacture, sell, buy, possess, or transport equipment, devices, and/or goods used for gambling purposes.

Such equipment is also known as gambling paraphernalia.

D. Sports Tampering

> Definition - To unlawfully alter, meddle in, or otherwise interfere with a sporting contest or event for the purpose of gaining a gambling advantage.

This offense includes engaging in bribery for gambling purposes. For example, if a jockey was bribed to lose a horse race, it would be reported as Sports Tampering, not Bribery.

NOTE: While explicit definitions are provided for most Group A crimes, some, such as Gambling Offenses, depend on the violation of locally established statutes.

12. Homicide Offenses

> Definition - The killing of one human being by another.

A. Murder and Nonnegligent Manslaughter

> Definition-The willful (nonnegligent) killing of one human being by another.

As a general rule, any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is classified in this category. Although offenders may be charged with lesser offenses (e.g., negligent manslaughter), if the killing was willful or intentional it must be reported as murder or nonnegligent manslaughter. The findings of a court, coroner's inquest, etc., do not affect the reporting of offenses in this category; these are law enforcement statistics.

Suicides, accidental deaths, assaults to murder, traffic fatalities, and attempted murders are not classified as murder or negligent manslaughter. Situations where a victim dies of a heart attack as a result of a robbery or witnessing a crime likewise do not meet the criteria for inclusion in this classification. A heart attack cannot, in fact, be caused at will by an offender. Even in instances where an individual is known to have a weak heart, there is no assurance that an offender can cause

sufficient emotional or physical stress to guarantee the victim will suffer
a fatal heart attack. Suicides, traffic fatalities, and fetal deaths are
totally excluded from the UCR Program, while some accidental deaths are
counted as negligent manslaughter. Assaults to murder and attempted murders
are classified as aggravated assaults.

B. Negligent Manslaughter

    Definition - The killing of another person through negligence.

Included in this offense are killings resulting from hunting accidents, gun
cleaning, children playing with guns, etc. Not included are deaths of
persons due to their own negligence; accidental deaths not resulting from
gross negligence; and accidental traffic fatalities. Again, the subsequent
findings of a court, coroner's inquest, etc., do not affect the reporting
of offenses in this category; these are law enforcement statistics.

C. Justifiable Homicide

    Definition - The killing of a perpetrator of a serious criminal
    offense by a peace officer in the line of duty; or the killing,
    during the commission of a serious criminal offense, of the
    perpetrator by a private individual.

Justifiable homicide is not an actual offense and is not included in an
agency's crime counts. A "serious criminal offense" is a felony or high
misdemeanor. Do not count a killing as justifiable or excusable solely on
the basis of self-defense or the action of a coroner, prosecutor, grand
jury, or court. The willful killing of one individual by another is being
reported, not the criminal liability of the person or persons involved. For
UCR purposes, crime determinations and counts are based on law enforcement
investigations.

In the original or summary UCR system, justifiable homicides were reported
as murders and then unfounded. In NIBRS, since the offenses are recorded as
justifiable homicides initially, they should not be unfounded. They will be
tallied separately and maintained apart from the murder counts.

Justifiable homicide, by definition, often occurs in conjunction with other
offenses. The crime that was being committed when the justifiable homicide
took place must be reported as a separate incident. These guidelines are
based on the definition of an incident which requires that all of the
offenders "act in concert." It cannot be said that the criminal killed
justifiably acted in concert with the police officer or civilian who killed
him; nor that the police officer or civilian who killed the criminal acted
in concert with the criminal in committing the offense that gave rise to
the justifiable homicide. Therefore, justifiable homicide cases involve two
criminal incidents rather than one.

If the "justified" killer (officer or civilian) committed another offense
in connection with the justifiable homicide (e.g., illegal possession of
the gun he/she used) that offense would constitute a third incident.

13. Kidnapping/Abduction

    Definition - The unlawful seizure, transportation, and/or detention
    of a person against his/her will, or of a minor without the consent

of his/her custodial parent(s) or legal guardian.

This offense includes not only kidnapping and abduction, but hostage situations as well. Although the object of a kidnapping may be to obtain money or property, this category is intended to capture information only on the persons actually kidnapped or abducted, not those persons or organizations paying ransoms. Therefore, for each kidnapping incident, report as victims only those persons taken or detained against their will.

14. Larceny/Theft Offenses

> Definition - The unlawful taking, carrying, leading, or riding away of property from the possession, or constructive possession, of another person.

Larceny and theft mean the same thing in UCR. Motor vehicle theft is not included and is counted separately because of the great volume of such thefts. Local offense classifications such as grand theft, petty larceny, felony larceny, or misdemeanor larceny have no bearing on the fact that each distinct operation of larceny is reported as one offense for UCR purposes. Also, all larceny offenses are reported regardless of the value of the property stolen.

Do not classify embezzlement; fraudulent conversion of entrusted property; conversion of goods lawfully possessed by bailees; counterfeiting; obtaining money by false pretenses; larceny by check, larceny by bailee; and check fraud as larceny offenses. Each of the aforementioned crimes falls within other offense categories.

A. Pocket-picking

> Definition - The theft of articles from another person's physical possession by stealth where the victim usually does not become immediately aware of the theft.

This type of theft includes removal of such items as wallets from women's purses and men's pockets and usually occurs in a crowd, public conveyance, or other similar situation to disguise the activity. Theft from a person in an unconscious state, including drunks, should also be classified as pocket-picking. However, if the victim is manhandled or force beyond simple jostling is used to overcome the resistance of the victim, the offense becomes strong-arm robbery.

B. Purse-snatching

> Definition - The grabbing or snatching of a purse, handbag, etc., from the physical possession of another person.

If more force is used than is actually necessary to snatch the purse from the grasp of the person, or if the victim resists the theft in any way, then robbery has occurred. Also, cases in which a purse or some other item of value is left unattended and is stolen should not be classified as a purse-snatching. This offense would be properly classified as a theft from a building, from a motor vehicle, or other appropriate larceny category.

C. Shoplifting

Definition - The theft, by someone other than an employee of the victim, of goods or merchandise exposed for sale.

This violation assumes that the offender had legal access to the premises, and thus, no trespass or unlawful entry was involved. This offense includes thefts of merchandise displayed as part of the stock in trade outside buildings, such as department stores, hardware stores, supermarkets, fruit stands, gas stations, etc.

D. Theft From Building

Definition - A theft from within a building which is either open to the general public or where the offender has legal access.

Do not include shoplifting and thefts from coin operated devices or machines within open buildings; these are other specific larceny types. Thefts from buildings include those from such places as churches, restaurants, schools, libraries, public buildings, and other public and professional offices during the hours when such facilities are open to the public. A theft from a structure, accompanied by a breaking or unlawful entry (trespass) without breaking, should be reported as burglary and not larceny.

E. Theft From Coin-Operated Machine or Device

Definition - A theft from a machine or device which is operated or activated by the use of coins.

Some examples of such machines are candy, cigarette, and food vending machines; telephone coinboxes; parking meters; pinball machines; or washers and dryers located in laundromats where no breaking or illegal entry of the building is involved.

If a building was broken into or illegally entered and a coin-operated machine in the building was rifled for money and/or merchandise, the matter would be classified as burglary.

F. Theft From Motor Vehicle

Definition - The theft of articles from a motor vehicle, whether locked or unlocked.

This type of larceny includes thefts from automobiles, trucks, truck trailers, buses, motorcycles, motor homes, or other recreational vehicles. It also includes thefts from any area in the automobile or other vehicle, e.g., the trunk, glove compartment, or other enclosure. Some of the items stolen in this type of theft are cameras, suitcases, wearing apparel, packages, etc., which are not an integral part of the vehicle. Do not include items that are automobile accessories, as they fall under theft of motor vehicle parts or accessories.

Certain state statutes might interpret thefts from motor vehicles as burglaries. For UCR purposes, these thefts must be classified as larcenies. If a theft from a motor vehicle occurs in conjunction with a motor vehicle theft, the incident will most often be reported as a motor vehicle theft with the stolen property recorded within the appropriate

property-type categories. If, however, the reporting jurisdiction determines that the real object of the theft was the contents, rather than the vehicle, two offenses can be reported, the vehicle theft and the theft from the vehicle. For example, if an automobile with a coat in the back seat is stolen, the offense would be reported as motor vehicle theft and the coat accounted for as property stolen in connection with the automobile theft. The theft of a tractor-trailer (truck) containing a shipment of televisions can, however, be reported as two offenses if in the judgment of the reporting agency the real object of the theft was the televisions, e.g., the truck is found abandoned and empty not far from the scene of the theft.

In larceny situations where both motor vehicle parts and accessories and articles from the motor vehicle are stolen, report the offense resulting in the greatest value of property loss. Report all of the property stolen.

G. Theft of Motor Vehicle Parts or Accessories

> Definition - The theft of any part or accessory attached to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation.

Thefts of motors, transmissions, radios, heaters, hubcaps and wheel covers, manufacturers' emblems, license plates, radio antennas, side-view mirrors, gasoline, tape decks, CB radios, radar detectors, etc., are included in this larceny type. If items being transported in the vehicle are stolen, the offense should be classified as theft from a motor vehicle.

H. All Other Larceny

> Definition - All thefts which do not fit any of the definitions of the specific subcategories of larceny/theft listed above.

This offense includes thefts from fenced enclosures. Thefts of bicycles, boats, bulldozers, airplanes, animals, lawn mowers, lawn furniture, hand tools, and farmland construction equipment are also included where no breaking or entering of a structure is involved.

Additionally, the illegal entry of a tent, tent trailer, or travel trailer used for recreational purposes, followed by a theft or attempted theft, should be counted as "all other larceny." Yet another example is the taking of gasoline from a self-service gas station and leaving without paying.

15. Motor Vehicle Theft

> Definition - The theft of a motor vehicle.

A motor vehicle is defined for UCR purposes as a self-propelled vehicle that runs on land surface and not on rails and which fits one of the following property descriptions:

Automobiles - sedans, coupes, station wagons, convertibles, taxicabs, or other similar motor vehicles which serve the primary purpose of transporting people.

Buses - motor vehicles which are specifically designed (but not necessarily

used) to transport groups of people on a commercial basis.

Recreational Vehicles - motor vehicles which are specifically designed (but not necessarily used) to transport people and also provide them temporary lodging for recreational purposes.

Trucks - motor vehicles which are specifically designed (but not necessarily used) to transport cargo on a commercial basis.

Other Motor Vehicles - any other motor vehicles, e.g., motorcycles, motor scooters, trail bikes, mopeds, snowmobiles, golf carts, whose primary purpose is to transport people.

Classify all cases where automobiles are taken by persons not having lawful access as motor vehicle theft even if the vehicles are later abandoned. Include joyriding.

Do not include the taking of a vehicle for temporary use when prior authority has been granted or can be assumed, such as in family situations; or unauthorized use by chauffeurs and others having lawful access to the vehicle. Other Group A offenses may, however, have occurred in these situations. For example, if a chauffeur steals a car entrusted to his care, an embezzlement should be reported.

16. Pornography/Obscene Material

    Definition - The violation of laws or ordinances prohibiting the manufacture, publishing, sale, purchase, or possession of sexually explicit material, e.g., literature, photographs, etc.

17. Prostitution Offenses

    Definition- To unlawfully engage in or promote sexual activities for profit.

A. Prostitution

    Definition - To unlawfully engage in sexual relations for profit.

This offense includes prostitution by both males and females.

B. Assisting or Promoting Prostitution

    Definition - To solicit customers or transport persons for prostitution purposes; to own, manage, or operate a dwelling or other establishment for the purpose of providing a place where prostitution is performed; or to otherwise assist or promote prostitution.

18. Robbery

Definition - The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or by putting the victim in fear of immediate harm.

Robbery involves the offender taking or attempting to take something of

value from a victim, aggravated by the element of force or threat of force. The victim, who usually is the owner or person having custody of the property, is directly confronted by the perpetrator and is threatened with force or is put in fear that force will be used. If there is no direct confrontation and the victim is not in fear of immediate harm, an extortion should be reported. In pocket-pickings or purse-snatchings, direct confrontation does occur, but force or threat of force is absent. However, if during a purse-snatching or other such crime, force or threat of force is used to overcome the active resistance of the victim, the offense is to be classified as robbery.

Cases involving pretended weapons or where the weapon is not seen by the victim but the robber claims to possess one are also classified as Robbery and the alleged weapon reported. If an immediate "on-view" arrest proves that there was no weapon, the offense is classified as Robbery, but the weapon is reported as "None."

Because some type of assault is an element of the crime of robbery, an assault should not be reported as a separate crime as long as it was performed in furtherance of the robbery. However, if the injury results in death, a homicide offense must also be reported.

In any instance of robbery, report one offense for each distinct operation. As in the case of other crimes against property, only one offense is reported regardless of the number of victims involved. The victims of a robbery include not only those persons and other entities (businesses, financial institutions, etc.) from whom property was taken, but also those persons toward whom the robber(s) directed force or threat of force in perpetrating the offense. Therefore, although the primary victim in a bank robbery would be the bank, the teller toward whom the robber pointed a gun and made a demand should also be reported as a victim, as well as any other person upon whom an assault was committed during the course of the robbery.

19. Sex Offenses, Forcible

> Definition - Any sexual act directed against another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent.

A. Forcible Rape

> Definition - The carnal knowledge of a person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her temporary or permanent mental or physical incapacity (or because of his/her youth).

This offense includes the forcible rape of both males and females. In cases where several offenders rape one person, report one forcible rape. Do not count the number of offenders. If force was used or threatened, the crime should be classified as forcible rape regardless of the age of the victim. If no force or threat of force was used and the victim was under the statutory age of consent, the crime should be classified as statutory rape. The ability of the victim to give consent must be a professional

determination by the law enforcement agency. The age of the victim, of course, plays a critical role in this determination. Individuals do not mature mentally at the same rate. Certainly, no 4-year-old is capable of consenting, whereas victims aged 10 or 12 may need to be assessed within the specific circumstances.

B. Forcible Sodomy

   Definition - Oral or anal sexual intercourse with another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity.

If a victim is both raped and sodomized in one incident, then both offenses should be reported.

C. Sexual Assault With an Object

   Definition - To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity.

An object or instrument is anything used by the offender other than the offender's genitalia. Examples are a finger, bottle, handgun, stick, etc.

D. Forcible Fondling

   Definition - The touching of the private body parts of another person for the purpose of sexual gratification, forcibly and/or against that person's will; or, not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental incapacity.

Forcible fondling includes indecent liberties and child molesting. Because forcible fondling is an element of forcible rape, forcible sodomy, and sexual assault with an object, it should be reported only if it is the sole forcible sex offense committed against a victim.

20. Sex Offenses, Nonforcible

   Definition - Unlawful, nonforcible sexual intercourse.

A. Incest

   Definition - Nonforcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

B. Statutory Rape

   Definition - Nonforcible sexual intercourse with a person who is under the statutory age of consent.

If force was used or threatened or the victim was incapable of giving consent because of his/her youth or mental impairment, either temporary or permanent, the offense should be classified as forcible rape, not statutory rape.

21. Stolen Property Offenses

   Definition - Receiving, buying, selling, possessing, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc.

22. Weapon Law Violations

   Definition - The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons.

Include violations such as the manufacture, sale, or possession of deadly weapons; carrying deadly weapons, concealed or openly; using, manufacturing, etc., silencers; and furnishing deadly weapons to minors.

NIBRS Group B Offense Definitions - 242 -

Text:

There are 11 Group B offense categories and they encompass all of the crimes which are not Group A offenses, with the exception of most traffic offenses. Only arrestee data (or Group B Arrest Reports) are reported for Group B crimes.

1. Bad Checks

> Definition - Knowingly and intentionally writing and/or negotiating checks drawn against insufficient or nonexistent funds.

This offense includes fraudulent checks and insufficient funds checks but not counterfeited checks or forged checks.

2. Curfew/ Loitering/ Vagrancy Violations

> Definition - The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going from place to place without visible means of support.

Included in this offense are unlawful assembly, begging, and vagabondage. Persons arrested as being a suspicious character, suspicious person, etc., are also to be included.

3. Disorderly Conduct

> Definition - Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.

This offense includes affray, breach of the peace, blasphemy, profanity, obscene language, disturbing the peace, and public nuisance.

4. Driving Under the Influence

> Definition - Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.

This offense includes driving while intoxicated and operating a bus, train, streetcar, boat, etc., while under the influence.

5. Drunkenness

> Definition - To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired.

Included are drunk and disorderly, common drunkard, habitual drunkard, and intoxication.

6. Family Offenses, Nonviolent

>   Definition - Unlawful, nonviolent acts by a family member (or legal
>   guardian) which threaten the physical, mental, or economic
>   well-being or morals of another family member and which are not
>   classifiable as other offenses, such as assault, incest, statutory
>   rape, etc.

This offense includes: abandonment, desertion, neglect, nonsupport,
nonviolent abuse, and nonviolent cruelty to other family members. It also
includes the nonpayment of court-ordered alimony, as long as it is not
considered to be contempt of court within the reporting jurisdiction.

NOTE: Do not include victims of these offenses who are taken into custody
for their own protection.

7. Liquor Law Violations

>   Definition - The violation of laws or ordinances prohibiting the
>   manufacture, sale, purchase, transportation, possession, or use of
>   alcoholic beverages.

Driving under the influence and drunkenness violations are
excluded. Included are violations of laws/ordinances prohibiting the
maintenance of unlawful drinking places; bootlegging; operating a still;
furnishing liquor to a minor; using a vehicle for the illegal
transportation of liquor; etc.

8. Peeping Tom

>   Definition - To secretly look through a window, doorway, keyhole, or
>   other aperture for the purpose of voyeurism.

9. Runaway

>   Definition - A person under 18 years of age who has left home
>   without the permission of his/her parent(s) or legal guardian.

While running away does not constitute a criminal offense, each handling of
a runaway should be reported. Include apprehensions for protective
custody. Detentions (pickups) of runaways from one jurisdiction by another
agency should be reported by the home jurisdiction.

10. Trespass of Real Property

>   Definition - To unlawfully enter land, a dwelling, or other real
>   property.

All burglary offenses include the element of trespass. Trespass, however,
involves entry with no intent to commit a felony or theft.

11. All Other Offenses

>   Definition - All crimes which are not Group A offenses and not
>   included in one of the specifically named Group B crime categories
>   listed above.

Offenses of general applicability (i.e., any offense prefixed by accessory before/after the fact, aiding and abetting, assault to commit, conspiracy to commit, facilitation of, solicitation to commit, threat to commit, or any other prefix identifying it as other than the substantive offense) are included in this category, if the substantive offense is within Group A. If Group B offenses are involved, classify as the substantive offense.

Generally, traffic offenses are excluded from this offense category. The vehicle-related offenses of hit and run (of a person) and vehicular manslaughter are, however, included; but driving under the influence is not as it is a separate Group B offense.
